

Disinfecting Your Workplace

We understand that everyone's health and safety is on the line. Because of this, SERVPRO has dedicated COVID-19 disinfection and cleaning resources for OpenSquare's clients.

OpenSquare has strategically partnered with SERVPRO to establish Preferred Partner Pricing (PPP) and priority scheduling for disinfection treatments to protect against coronavirus and indoor air borne contaminants such as enveloped and non-enveloped viruses, bacteria, mold, and volatile organic compounds (VOCs).

SERVPRO's Elite Designation Extreme Response Team is strategically trained, positioned and equipped to handle jobs of every magnitude. This team has a commitment to providing rapid emergency response 24/7 throughout the US. SERVPRO's full-service approach to biohazard decontamination fully complies with local, national and international regulations.

- Sole vendor to perform cleaning and disinfecting for the Federal Reserve Bank of San Francisco
- National Account Pricing Available to All
- 24-Hour Response Time, Commercial
- 4-5 Days Response Time, Residential
- 5% of All Work Donated to Local Hospitals
- Service Available in United States and Canada

NOW IS THE TIME TO ACT

SERVPRO utilizes hospital-grade products that combat the spread of germs to promote healthy & safe work environments. Even though they're tough on germs, the disinfectants we use are gentle and safe for you and your workspace.

Now that we are experiencing community transmission in North America, we believe it is prudent to take immediate precautionary measures.

Disease outbreak is an extremely serious situation and OpenSquare and SERVPRO are here to help simplify the solution through preparedness and prevention.
