People and space matter

Workspace Development LLC, dba OpenSquare, signifies advancement beyond the expected. Our team partners with architects and designers to implement the most advanced solutions and products in our industry.

We research how and where people work to create fluid work environments that improve your day-to-day operations, foster employee well-being and increase efficiency. We develop individual and shared workspaces that open a higher level of organizational ability by facilitating collaboration and information sharing.

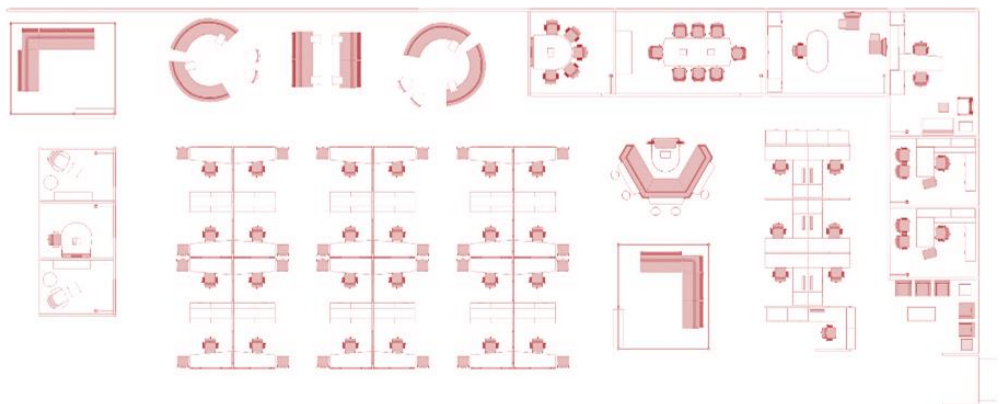

OpenSquare solutions keep pace with the latest workspace innovations. Together we open the possibilities within your space to meet the specific needs of your organization
